

# An experience where strength meets comfort!

Made in Canada, the Spartan spa is our most updated spa to date. Its modern and current exterior will blend perfectly with your environment and we are sure that it will meet your needs and will be able to offer you magical moments with friends and family all year round.

## A simple but solid design

### EASY INSTALLATION

No ground preparation required. Install on a level surface; no patio or concrete required.

### INNOVAFLOW TECHNOLOGY

An energy-efficient system that minimizes demand on the water heater, resulting in energy savings.

### POLYETHYLENE

Molded in one piece, the Spartan is tough and virtually indestructible. There is no risk of cracking and it remains easy to maintain.

### 120V CONNEXION

Immediately plugged into a wall outlet, immediately ready to use. It is economical and efficient. The Spartan is compatible with a 240V input.

### FOUR SEASONS

The Spartan has been tested in different climatic conditions. Thermafoil insulation creates a thermal cabin effect. A 240V connection is nevertheless recommended for optimal use during winter.

## Three easy steps

Place it

Add Water

Plug it in

## Spartan Model
