

ARGON

DESIGNED BY BUILDERS, FOR BUILDERS

ARGON

The **ARGON 3"** Vinyl Series from Spa Electrics has been purpose built from the ground up, to deliver a lighting solution that not only provides superior illumination and functionality, but is built to endure the demands of extreme climate installations.

From the strength and durability of its components, to its class leading LED performance; every aspect of the **ARGON 3"** has been developed with the industry in mind.

Its premium German engineered LED's and advanced optics are coupled with the industry's first forward-facing Heat Sink design; delivering a slim, modern profile while maximizing the cooling efficiency by forcing heat forward, into the pool – not the niche.

With the **ARGON** Quick-Connect plug attachment system and superior niche cable storage; the **ARGON** can be winterized in minutes and the smart niche cover will ensure the plug and niche are protected, in even the harshest climates.

BUILT FOR EXTREMES

ARGON offers a smarter winterizing system with the Click'n'Twist Winterization Cap for protection during extreme conditions, and simple, fast servicing

BUILT SMART

Innovative features like our Quick Connect Plug guarantee you're working smarter with easier installation and servicing throughout the year

BUILT POWERFUL

Maximize light performance with **ARGON**'s combination of advanced optics and engineered components to deliver maximum efficient output

The **ARGON** Series is designed and manufactured in Australia and backed by Spa Electrics' industry leading customer care network. For more information on the **ARGON** Series and our other products, please visit: www.spaelectrics.com

Product Specification

VOLTAGE:	10.5~13v AC
WATTAGE:	15w
INGRESS PROTECTION:	IPX8
SUITABLE FOR:	Composite and Steel Wall Vinyl Pools

LED Light Type MULTI PLUS

LED Array:	RGB+W
WAVELENGTH:	Varies
LUMENS:	1000lm
COLOR RANGE:	7 colors + 4 shows

MULTIPLUS

Hardware Specification

POOL CONTROLLERS:	Compatible with major brand pool controllers
TRANSFORMER:	Compatible with LVX Series

BUILT FOR EXTREMES

QUICK CONNECT PLUG

STANDARD HOLE SIZE

CLICK 'N' TWIST

3 YEAR SERVICE WARRANTY
